## Who we are

**We are** – a group of MPs fighting the corner for a Conservatism founded on traditional Conservative principles.

**We believe in** – the spiritual values which have informed British institutions, our culture and our nation's sense of identity for centuries, underpinned by the belief in a strong nation state.

**We stand for** - the Monarchy; traditional marriage; family and community duties; proper pride in our nation's distinctive qualities; quality of life over soulless utility; social responsibility over personal selfishness; social justice as civic duty, not state dependency; compassion for those in need; reducing government waste; lower taxation and deregulation; our ancient liberties against politically correct censorship and a commitment to our democratically elected parliament

The Cornerstone Group comprises around 40 members of the parliamentary Conservative party including those listed below. For more information about our members please click on the name.
